**The Russell Sage Foundation**

The Russell Sage Foundation, one of the oldest of America's general purpose foundations, was established in 1907 by Mrs. Margaret Olivia Sage for "the improvement of social and living conditions in the United States." The foundation seeks to fulfill this mandate by fostering the development and dissemination of knowledge about the country's political, social, and economic problems. While the foundation endeavors to assure the accuracy and objectivity of each book it publishes, the conclusions and interpretations in Russell Sage Foundation publications are those of the authors and not of the foundation, its trustees, or its staff. Publication by Russell Sage, therefore, does not imply foundation endorsement.

**Board of Trustees**

**Mission Statement**

*RSF: The Russell Sage Foundation Journal of the Social Sciences* is a peer-reviewed, open-access journal of original empirical research articles by both established and emerging scholars. It is designed to promote cross-disciplinary collaborations on timely issues of interest to academics, policymakers, and the public at large. Each issue is thematic in nature and focuses on a specific research question or area of interest. The introduction to each issue will include an accessible, broad, and synthetic overview of the research question under consideration and the current thinking from the various social sciences.

**William T. Grant  
FOUNDATION**

The William T. Grant Foundation supports research to improve the lives of young people ages five to twenty-five in the United States. The foundation's grantmaking centers on research that has the potential to advance theory, build empirical evidence, and improve policy and practice. Throughout its eighty-year history, the foundation has awarded grants to prominent researchers yielding research that has been pivotal in improving outcomes for youth and the systems in which they develop.

Currently, the foundation funds research that increases our understanding of programs, policies, and practices that reduce inequality in youth outcomes, and research that identifies, builds, and tests strategies to improve the use of research evidence in ways that benefit youth.
