Science and Policy*

**VOLUME 5, NUMBER 3, MARCH 2019**

**The Russell Sage Foundation**

The Russell Sage Foundation, one of the oldest of America’s general purpose foundations, was established in 1907 by Mrs. Margaret Olivia Sage for “the improvement of social and living conditions in the United States.” The foundation seeks to fulfill this mandate by fostering the development and dissemination of knowledge about the country’s political, social, and economic problems. While the foundation endeavors to assure the accuracy and objectivity of each book it publishes, the conclusions and interpretations in Russell Sage Foundation publications are those of the authors and not of the foundation, its trustees, or its staff. Publication by Russell Sage, therefore, does not imply foundation endorsement.

**Mission Statement**

*RSF: The Russell Sage Foundation Journal of the Social Sciences* is a peer-reviewed, open-access journal of original empirical research articles by both established and emerging scholars. It is designed to promote cross-disciplinary collaborations on timely issues of interest to academics, policymakers, and the public at large. Each issue is thematic in nature and focuses on a specific research question or area of interest. The introduction to each issue will include an accessible, broad, and synthetic overview of the research question under consideration and the current thinking from the various social sciences.

Gates Foundation** *BILL & MELINDA  
GATES foundation*

Guided by the belief that every life has equal value, the Bill & Melinda Gates Foundation works to help all people lead healthy, productive lives. In developing countries, we focus on improving people’s health and giving them the chance to lift themselves out of hunger and extreme poverty. In the United States, we seek to ensure that all people—especially those with the fewest resources—have access to the opportunities they need to succeed in school and life.

The foundation’s U.S. Economic Mobility and Opportunity Program seeks to ensure that there are more public, private, philanthropic, and academic actors working together over the next decade to dramatically increase economic mobility. We are working to increase access to better information and tools needed to tackle barriers to opportunity and develop mobility strategies at the community, state, and national levels. We are committed to partnership, innovation, research, and programmatic investments that will help more Americans to climb the economic ladder and lead fulfilling, dignified lives.
